

Building Chatbot And Integrate To Application

Date	03 November 2022
Team ID	PNT2022TMID31098
Project Name	Smart Fashion Recommender Application

BUILDING CHATBOT:

The screenshot displays the IBM Watson Assistant interface, which is used for building and managing chatbots. The interface is divided into several sections:

- Header:** Includes the text "IBM Watson Assistant Lite", an "Upgrade" button, a user profile icon labeled "Kiki", and a "Learning center" link with a question mark icon.
- Conversation Area:** Shows a sample conversation. The customer starts with the message "I want you to recommend me few products of your store". The assistant responds with "Hey I am Kiki. I am your Fashion Recommender! Its my pleasure to recommend products for you. Can you...". The conversation steps are numbered 1 and 2, with options to "Continue to next step".
- Customer starts with:** A section for defining the initial customer message. It includes a text input field and a "Total: 4" indicator. Below this, there are four example phrases: "Suggest me few products", "Recommend me few products", "Show me few recommendation of your products", and "I want you to recommend me few products of your store".
- Buttons:** A "New step +" button is located at the bottom left, and a "Preview" button with a play icon is at the bottom right.

CHATBOT INTEGRATION:

```
window.watsonAssistantChatOptions = {  
  integrationID: "3ae32e91-3c2f-4a1e-ac7e-730c9d889e55", // The ID of this integration.  
  region: "eu-gb", // The region your integration is hosted in.  
  serviceInstanceID: "6eca87f4-f816-403d-9661-9c294ee92c85", // The ID of your service instance.  
  onLoad: function(instance) { instance.render(); }  
};  
  
setTimeout(function(){  
  const t=document.createElement('script');  
  t.src="https://web-chat.global.assistant.watson.appdomain.cloud/versions/" + (window.watsonAssistantChatOptions.clientVersion  
  || 'latest') + "/WatsonAssistantChatEntry.js";  
  document.head.appendChild(t);  
});
```
